Message from the Acting Principal, Mr Justin Smith

Over the past few weeks, students have been completing assessment for the semester. I am happy to say there have been great improvements made across the year levels in our reading and spelling diagnostic tests. Reports will come home Thursday, so please ask your child for it.

At the end of each term, teachers on each year level get together after school to complete moderation. This is a process where teachers look at examples of student work from each class to check that we are consistent in our marking. This is how we maintain standards across the year level.

One happy aspect of this process is that the Deputies and I get to see some of the best work from our year levels. I can assure you that that I have seen some marvellous work from Kruger students that would be an A, or A+, anywhere. However, just as importantly, we also see students who have made excellent progress and should be justifiably proud of their results. I congratulate these students who really walk the talk of our Kruger Expectation- “Best Effort”.

The end of term also saw the end of Season 1 Sport. Congratulations go to all the teams for the way they played their games. I am proud of the feedback we receive from other schools and officials about our students. Special congratulations to:-

  - Netball - Junior Premiers and Senior Runner Up
  - Soccer boys- Junior Premiers and Senior Runner Up
  - Rugby League- 9&12 Premiers, 10 & Senior Girls Runner Up

We also focus on the cultural side of school. Students have been working with Ms McShane on a lunchtime music group. Unfortunately, their parade performance had to be cancelled last minute due to circumstances. Our apologies to anyone who attended parade waiting to see them perform. We will give them an opportunity soon.

We have also just had our annual Kruger’s Got Talent. What a wonderful night of entertainment. It amazes me what some of our young students can do and the confidence they display in front of such a large audience! Our winners will perform again on parade in the future. A huge thanks to Ms Bailsand her assistant, Ms Thompson, who have spent many hours getting students auditioned (over 90) and practised for the night. So much work goes into making the evening look so good. It is wonderful to have such dedicated staff.

Finally, Kruger School wishes all our families a healthy, safe and fun-filled holiday and look forward to seeing everyone back on the first day of next term because “Every day counts” at Kruger.

Nationally Consistent Collection of Data on School Students with Disability

Collecting data on school students with disability helps teachers, principals and education authorities support the participation of students with disability in schooling on the same basis as students without disability.

All Australian Governments have agreed to work together on the annual collection of data on school students with disability.

In 2013, 10% of Queensland state schools participated in the first year of implementation. In 2014, two thirds of Queensland schools will participate and all schools will be collecting data from 2015. Our school has been involved in the nationally consistent collection of data from last year.

Please be reassured that the Department will not provide any data that can identify an individual student for other organisations. The only data being collected at the school level to be reported nationally is the:

- number of students in the school who are provided with an adjustment to address a disability;
- level of adjustments we provide for those students; and
- broad category of disability.

Consultation with parents is important, not only for the data collection, but also to ensure you aware of the adjustments being provided to support your child. We will therefore continue to consult with you.

While only data that cannot identify your child will be submitted outside of the Department, if you do not wish for your child’s details to be included, please let me know.
Focus On - The Australian Dietary Guidelines for Children and Adolescents

The role of schools

Schools have an important role in promoting healthy eating and physical activity to students and providing an environment that supports a healthy lifestyle. A healthy diet can improve behaviours critical to educational success and performance at school. Effective school-based nutrition and health interventions can also help improve academic performance.

Tuckshops are an important part of the school environment; they can model healthy food and drink choices that are tasty, interesting and affordable, and provide the means to put into practice nutrition messages taught in the classroom.

The Australian Dietary Guidelines for Children and Adolescents (2003) were developed by the National Health and Medical Research Council as a useful tool to promote healthy eating patterns. They are based on the best scientific evidence available and current knowledge about what children need to grow and develop to their optimum potential. The guidelines are not listed in order of importance and should be considered together as a package rather than in isolation.

Encourage and support breastfeeding.

Children and adolescents need sufficient nutritious foods to grow and develop normally.

Growth should be checked regularly for young children. Physical activity is important for all children and adolescents.

Enjoy a wide variety of nutritious foods.

Children and adolescents should be encouraged to:

- eat plenty of vegetables, legumes and fruits
- eat plenty of cereals, (including breads, rice, pasta and noodles), preferably wholegrain
- include lean meat, fish, poultry and/or alternatives include milks, yoghurt, cheese and/or alternatives. Reduced fat milks are not suitable for young children under two years old, because of their energy needs, but reduced fat varieties should be encouraged for older children and adolescents
- choose water as a drink.

And care should be taken to:

- limit saturated fat and moderate total fat intake. Low fat diets are not suitable for infants
- choose foods low in salt
- consume only moderate amounts of sugars and foods containing added sugars.

Care for your child’s food: prepare and store it safely.

Staying Safe around Bats

Children need to be aware that bats, including flying foxes, are protected species and pose minimal risk to humans provided they are left alone and not touched. However, children should not try to hurt or help sick or injured bats as they are putting themselves and the animal at risk. If you see a bat or flying fox that is hurt call:

- RSPCA—1300 ANIMAL (1300 264 625)
- Department of Environment and Heritage Protection—1300 130 372
- your local wildlife care group/rescuer/carer for assistance.

If a child is bitten or scratched by any bat, they should tell their parents, teacher or responsible adult straight away, wash the wound thoroughly with soap and water and visit their local doctor immediately.

Head Lice

It has come to our attention that we currently have a number of cases of head lice in the school.

Some parents in each class are being very responsible by checking and treating their children regularly, but this is only effective if EVERY child is checked and treated, as well as other members of the family.

The Health Department advises that it is the parents’ responsibility to detect and treat head lice infestations.

Teachers and Child Health Nurses are not expected to do head inspections as this is not part of their duties.

PLEASE CHECK YOUR CHILD AND OTHER FAMILY MEMBERS AND TREAT PROMPTLY IF YOU FIND EGGS (NITS) OR LICE.

In the event that it comes to our attention that a child has head lice, we need to act in accordance with departmental policy. This requires us to contact parents to ask for prompt attention to treatment. **Children who have head lice do not need to be excluded from school if correct treatment has been recently applied.**

School Safe – Ipswich City Council

**Your Child’s Safety is our Priority!!**

Ipswich City Council proactively monitors parking at schools to help improve your child’s safety.

Council’s ‘Safe parking at Schools’ initiative aims to ensure people park safely and legally, improving community safety through education of your school community rather than focusing on enforcement.

The initiative also includes the use of Patrolling Officers, Automatic Numberplate Recognition camera cars and remote movement activated cameras to capture parking offences.

Safe and legal parking is generally located within 300m of a school.

Please drive and park safely around your school – It’s your child’s safety.

Council works with your school through the Healthy Active School Travel program to encourage families to walk and cycle to and from school and improve health and road safety.

For more information about safe travel routes contact your school or contact Ipswich city Council on (07) 3810 666.

MiYoga

Does an 8 week mindfulness yoga program, “MiYoga”, enhance cognitive functions such as attention, physical strength, behaviour and emotional control in children with cerebral palsy? MiYoga incorporates a family centered approach to therapy by inviting a caregiver to participate alongside their child. We will also want to see if MiYoga can relieve caregiver stress and improve parent child relationship.

We are looking for children with diplegia or hemiplegia cerebral palsy, aged 6-16 years old, who can walk independently or with a gait aid (GMFCS I-III) and one of their caregivers.

For more information please see flyer attached and webpage: https://exp.psy.uq.edu.au/miyoga/index.html?page=home

Hassle-Free Mealtimes Triple P – Positive Parenting Program

Are you experiencing problems with your child’s eating and mealtime behaviour?

Eating and mealtime problems in children are common and can be improved. The Parenting and Family Support Centre at the University of Queensland is conducting research regarding the effectiveness of a brief parenting seminar for parents who are concerned about their child’s eating, and you can be involved!

The Hassle Free Mealtimes Triple P program involves attending a one-off 2-hour group session, which will provide parents with information and helpful everyday tips and strategies for dealing with problem eating and improving their child’s mealtime behaviour.
If you are a parent of a 2 to 5-year-old child and are concerned about your child’s feeding and mealtime behaviour, we would love to hear from you!

Hassle-Free Mealtimes Triple P has already been trialled successfully in a longer format. The current study hopes to provide support for brief group-based parenting interventions so that more parents can have access to parenting advice. Results of this study will be made available to participants.

Would you like your family to live a healthier lifestyle?

Raising healthy children is an important aspect to positive parenting. Your child’s physical health can affect their growth and development, their ability to participate in school, sport and other activities, and how they get along with other children. Children who eat well and stay active are more likely to develop into healthy adults. Researchers at the University of Queensland are currently offering a FREE Triple P parenting program to parents of children 3 to 10 years in exchange for participation in research.

Across three seminars you will learn strategies for…

- Managing both general and lifestyle-specific child problem behaviours
- Helping your child eat a healthy balance of nutritious foods
- Motivating your child to be more active
- Limiting screen time

The program is run at St Lucia and Ipswich, with free childcare available for families. To register visit our website: www.exp.psy.uq.edu.au/life

Triple P - Are you a Parent of a Child with Type 1 Diabetes?

Every day, thousands of Australian children suffer the effects of type 1 diabetes and families struggle with illness management and children’s behavioural and emotional adjustment.

Positive Parenting for Healthy Living is an adaptation of the successful Triple P- Positive Parenting Program offering practical ideas and support for parents of children with type 1 diabetes. This innovative group program is designed to help parents manage their child’s illness, assist children in coping with their illness and emotions, and prevent and manage difficult child behaviour.

Over the next few months and for a limited time only, parents of 2-10 year old children with type 1 diabetes are able to access Positive Parenting for Healthy Living Triple P as part of a University of Queensland research project. Parents will be able to attend the program free of charge, and will be asked to complete 2 sets of assessment measures (questionnaire and family observation) over a 6 month period, as part of the study.

24/7 CSF Cycling Safety Fund

24/7 Cycling Safety Fund has been established since August 2011, with strong support from the community, Ipswich City Council and other government and business organisations. We aim to provide a safe cycling facility for the Ipswich community. Along with this, with the Ipswich City Council we are providing Bike Ed programs to many local Primary Schools in the Ipswich region. This program has been well received by the parents and children who participate in it.

An off road cycling facility would not only benefit cycling groups and other sporting bodies in the area, but may also be of benefit
to the school communities. Bike Ed programs can be held at such a venue, as well as providing an alternative location for school triathlon groups to practise their run and bike components of triathlons.
